

Jack & Grace Wedding Packages

2026/2027

Wedding Daytime Package

Starting at £600

- 2 x 50 minute sets taken together or split as required, with acoustic guitar and 2 vocals, plus live-looping to create great vibes for your guests.
- We are happy to perform one special request. This could be a special song to you both. You can also let us know your top preferences from our repertoire list - so you can be sure to hear all your favourites on the day.
- Set up time depending on access to the performance area is minimum 60 minutes, with a sound/lighting check before guests are present in the space if possible. We use a BOSE PA system for high quality sound. Lighting and dressing is also included. We have a relatively compact performance layout so can fit into a 3x3m space inside rooms or even outside as required (Cover is required to protect our equipment against rain or strong sun conditions).
- **Ideal for your cocktail hour / drinks reception.**

Wedding Reception **Duo** Package

Starting at £750

- 2 x 50-60 minute sets taken together or split as required, with acoustic guitar and 2 vocals, plus live-looping to create more upbeat vibes.
- Though we specialise in a more easy-going cocktail hour vibe, we can certainly keep an evening party going too - just note it will not be a full band sound, nor will we be able to put on the same level of light show that big party acts do, but we will do our best to keep the dance floor full! We do find people prefer us to perform in this slot followed by DJ/PA Music, or another larger band; both more suited to creating a full dance floor feel late into the night, and we will warm up the guests for that.
- We are happy to perform one special request. This could be the Bride & Groom's first dance. You can also let us know your top preferences from our repertoire list once again.
- The curfew for this package is based on a Midnight finish time.
- **Ideal for moderate guest numbers, with an upbeat, but tasteful vibe.**

Wedding Reception **Trio** Package

Starting at £975

- As above, with additional rhythm added the very accomplished Josh Hinds - playing Cajon drum, shakers, and other funky percussion elements to keep the grooves flowing late into the night. See the Youtube Link below for a flavour.
- **This is an ideal package for moderate-high guest numbers, with a real party feel**
